

Driver & Millwright

Item Price Free

Description

We are looking for a skilled Millwright who has experience with industrial and construction equipment maintenance, as well as a valid Class A CDL. Under a foreman's guidance a Millwright will Install, assemble, dismantle, move, and assist with repairing machinery and heavy equipment, according to layout plans or other drawings. Work will be conducted in factories, plants and other various industrial settings. We operate a safe working environment, and consider security and safety our top priorities, so we are looking for a professional whose values reflect our own. You will be working on various construction or industrial sites, both locally and regionally, and some travel will involved with this position.
